My name is Walter Alexander Palacios, #385469. I'm writing to seek help for my case. First, I'd like it to be known that I was out of town in Virginia on the date of the incident, November 6, 2019. I have alibis and proof of that. I also have evidence to prove my innocence, more over, there is not any witnesses to place me at the scene nor does the state have any DNA linking me to the crime.

The alleged victim, Maria Del Carmen Flores, told the 911 operator that she was stabbed in the leg which is untrue. Also; the hospital took pictures of her wounds which shows everything, yet she was allowed to lie in court by stating that she also had wounds on her hands. Flores states that she was stabbed but the photos clearly shows that is untrue, that the fight lasted 25 minutes, which is also untrue and without evidence to support these claims. Also in court they focused only on Flores' wounds not who caused them or how they occurred. Review my case again. Please help, if my argument isn't enough, maybe one of "Coabitator" is sufficient, along with the inconsistencies

quality. I was not at the house during the event. I did not speak for myself

in court because my lawyer advised me not to speak. I provided my lawyer with the evidence to free me, and he never used it.

I'm willing to talk and submit the results of a lie detector test. I beg your help.

I have children and a mother who need me. It is not just that I am in prison due to the lies of one woman. I ended

my relationship with Flores, began a new life with someone new in a new area, but

she pressured me to return to her or she would have me sent to prison. She injured

herself to make good on her threats and now I'm paying for it with my life.
