

I James Byers sold a truck to Bobby Littlejohn. He had work done on the truck and feels that the person took out the original seats front & back. The seats seemed to have been changed. The back seats seemed to be higher and the side panels are scratched. One of the back seats do not fold up anymore and it worked when I sold it to him. There now seems to be burnt marks on the ceiling or roof of the car. There is also scratches on the center console that I do not remember being there. I sold the truck to him in fair to good shape. The inside of the truck was in even better shape.

James Byers 11/29/19

P.S. The seats are now dirty and worn out.
